## Cubus Chandelier LED

Made in Germany

Stylish long-field LED lamp designed as a modern chandelier in aluminium. There are duo light strips with 3000 or 2400 Kelvin light colour in each Uprofiles.

This means the core brightness is distributed without glare on a large volume of space.

Its unobtrusive design harmonises in both classic arcades as well as modern halls and archways. The power is 88 watts and is infinitely dimmable. The acrylic-covered light bands make this light maintenance-free for up to 50.000 hours.

- LED 88 Watt • 3000 Kelvin • 6077 Lumen
- Dimension: 1200 x 400 mm
- Anodized aluminium C32

CE  IP54
